

Texas Medical Centre Innovation

Texas Medical Centre (TMC) is the world's largest medical city, housing the world's largest children's hospital and cancer hospital. TMC actively support **Innovation, Clinical Research, and Venture Funding.**

Speakers **Tom Luby, Director TMC Innovation** and **Emily Reiser, Associate Director, TMC Innovation** will provide an overview of TMC Innovation, and how the Centre forms, fosters, recruits, and funds healthcare companies. They will discuss how they engage with and evaluate start-up companies, provide support to entrepreneurs as they broaden their vision and network, and perform diligence on the companies seeking to progress clinical and business milestones.

Date: Friday 6th May, 2022 | Time: 10:00am

Location: Clinical Science Institute, Small Lecture Theatre CSI 1021 or online (Zoom)
